32nd Annual Report 2017-2018

ANNEXURE IV

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Directors of **APOLLO FINVEST (INDIA) LIMITED** are pleased to present the Management Discussion & Analysis (“MD & A”) Report for the Year Ended 31st March, 2018. Your Company is engaged in giving loans, investment in shares/debentures, immovable properties, equity mutual funds and debt mutual funds etc.

BUSINESS SCENARIO:

The NBFC (Non-Banking Finance Company) sector has evolved considerably in terms of its size, operations, technological sophistication, and entered into newer areas of financial services and products. NBFCs are now deeply inter-connected with the entities in the financial sector, on both sides of their balance sheets.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

The Company’s main business is investment in shares/debentures, immovable properties, equity mutual funds, and debt mutual funds giving loans etc. The Company performed well during the year. Sales and other income of the Company during the year was Rs. 18,754,407. The Company has for the year ended 31st March, 2018, made a net profit of Rs. 10,856,305. The net-worth of the Company stood at Rs. 166,130,758 as compared to Rs. 155,274,454 in the previous year.

OPPORTUNITIES AND THREATS:

These are great times for NBFC’s. The market for financial products is expanding at a rapid pace thanks to government initiatives like Aadhar and UPI. The digital revolution brought in by Jio has humungous consequences. Millions of new users are coming online and the internet usage of existing customers is rising manifold. The digital trace of data this is creating is unprecedented. This data enables us to create a digital identity of users. The size of the opportunity this digital identity creates is huge. We are racing towards a future where financial products will be available at the tip of customers. They will be omnipresent in our everyday transactions and incredibly dynamic in nature. Our digital identities will establish a “trust protocol” and each of us will have a “trust score” which is connected to our digital trace of data. “Trust” worthy customers will get access to credit in milliseconds. The user experience for such users will be magical. It will be unimaginable how we ever lived in a world where credit worthy customers had to wait days and hours to be “trusted”. The establishment of this “trust protocol” will be a game changer. It will expand the economy and make transactions, we now take days and weeks to complete, in seconds.

SEGMENT-WISE PERFORMANCE:

The Company’s main business is investment in shares / debentures, immovable properties, equity mutual funds, and debt mutual funds giving loans etc. All the activities of the Company are related to its main business. As such there are no separate reportable segments.

OUTLOOK:

In the present era of digital revolution, technology has been leaving its indelible mark in several areas, including finance.

The Directors believe every Company with a captive user base, will begin to offer customized financial products to them. These financial products will be offered based on user data and have gathered basis the user’s actions on its platform. Technology’s involvement is proving to be beneficial at providing efficiency gains by calculating credit scores based on machine learning algorithms, alternative data points such as social media footprints, call records, shopping histories, payments to utility service providers and various other data points. This data combined with traditional data such as CIBIL scores and bank statements will form the basis of new age credit underwriting.

Today these Fintech’s face tremendous friction in engaging and integrating with traditional banks or NBFC’s. This is primarily due to lack of motivation from traditional lenders to entertain Fintech’s doing low volumes as compared to their primary business. Quite simply, the financial products required by Fintech’s, using non - traditional borrower data, are not present with traditional lenders. Even if traditional lenders decide to move forward with the partnership, it is done at low priority and takes over 4 - 6 months to complete. The technology integration is an added hurdle due to the difference in technology architectures between the two Companies. This adds further time and complexity to establishing the partnership.

Due to these challenges, we believe there is a need and opportunity for an internet first transactional NBFC. This NBFC will serve as a platform providing new age API’s allowing partner companies to build their customized financial products on top. A good parallel to this would be “AWS for Fintech Companies”. Technology and data will be the heart of this NBFC. Integrations with Fintech’s would be simply “plug and play”. Allowing Fintech’s to go live in a matter of hours rather than months. This is an opportunity Apollo Finvest (India) Limited is bullish on.

RISKS AND CONCERNS:

The Company is mainly exposed to risks arising out of counterparty failures, funding and asset concentration, interest rate movement and risks pertaining to liquidity and solvency, as any other financial sector player.

It is also exposed to market risk in the form of reduction in value of its investments and fall in returns due to dip in the investee Company’s performance. As a result today’s operating environment demands a rigorous and integrated approach to risk management, which the Company has incorporated in its strategic and operating decisions.

INTERNAL CONTROL AND INTERNAL AUDIT SYSTEM:

The Company has an internal control system, commensurate with the size, scale and complexity of its operations. Significant audit observations and corrective actions, if any, are presented to the Audit Committee of the Board.

HUMAN RESOURCES:

Relations remained cordial with employees at all levels during the year.

CAUTIONARY STATEMENT:

The Statement in this Management Discussion and Analysis report, describing the Company’s outlook, projections, estimates, expectations or predictions may be “Forward looking Statements” within the meaning of applicable securities laws or regulations. Actual results could differ materially from those expressed or implied.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the Internal Financial Controls over financial reporting of **APOLLO FINVEST (INDIA) LIMITED** (“the Company”) as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
